RACKS

SAME EXERCISES, HALF THE SPACE

HALF RACK LONG BASE

Models 3105 and 3106

PUSHING THE LIMITS OF HUMAN PERFORMANCE

At Keiser, we're constantly innovating to reach the next level of human performance. We're never satisfied with the status quo. Even if it's our status quo. Because... Strong can be stronger. Fast can be faster. Power can be more powerful. Because science is on our side. **Because... 'Good Enough' Isn't.**

KEISER

KEISER STRENGTH

All Keiser patented hybrid Racks combine Keiser **Dynamic Variable Resistance** and iron weight resistance. Keiser Dynamic Variable Resistance pulls straight down on the bar [just like gravity] and follows the bar as it moves horizontally. You can train at any speed, from controlled to explosive, developing Power and Stability.

RACKS HALF RACK LONG BASE

Models 3105 and 3106

AMAZING BENEFITS, SMALL FOOTPRINT

To some, it's just half a rack, but it still carries all the punch of the Power Rack with Keiser Dynamic Variable Resistance. The long base provides the same foot operated resistance controls found on the Power Rack.
