A full line of MEGADYNE™ MEGA SOFT™ Reusable Patient Return Electrodes for your OR

MEGADYNE™ MEGA SOFT™ Universal

The MEGADYNE™ MEGA SOFT™ Universal pad can be used for any size patient since it is designed for use with patients above 0.35kg (0.8 lb) with no maximum weight limit.^{7,*} Compared to the original MEGA SOFT™ pad, MEGA SOFT™ Universal is lighter weight for easier pad positioning and transport, and its lower profile provides increased flexibility to use over positioning pads and frames. The dual-cord option has two electrosurgical connectors, which allow one pad to be used with two separate electrosurgical generators at the same time.

MEGADYNE™ MEGA SOFT™

The MEGADYNE™ MEGA SOFT™ combines the MEGA SOFT™ patient return electrode technology with an OR table pressure reduction pad so it can be used in a variety of surgical procedures and positions. The dual-cord option has a patient return electrode with two electrosurgical connectors, which allow one pad to be used with two separate electrosurgical generators at the same time.

MEGADYNE™ MEGA SOFT™ Pediatric

The MEGADYNE™ MEGA SOFT™ Pediatric is designed for 'patients between 0.35kg and 22.7kg (0.8 lb and 50 lbs).^{7,*} With a pressure-relieving polymer and no adhesives, it protects delicate skin.
